Education

Azusa Pacific University

Azusa, CA

Computer Science, Game Development Concentration

August 2021 – May 2025

Relevant Coursework: Data Structures, Mobile App + Game Dev, Cybersecurity, Software Engineering, OS

Awards/Honors: Dean's List Fall 2023 + 2024 ([Badgr](#)), UG Fr. Provost Scholarship, Project Management ([Badgr](#))

Saint Lucy's Priory High School

Glendora, CA

Honor's Student-Athlete, Girls Who Code, JV and Varsity Softball, GPA: 4.1
2021

August 2017 – May

Technical Skills & Projects

Programming: C#, Python, Java, C++, HTML/CSS, C, MySQL, MATLAB, JavaScript, and ReactNative

Software: Unity, Unreal Engine 5, GitHub, VSCode, Ren'Py, Jupyter Notebook, Trello, Slack, Sheets/Excel

Senior Capstone

Led a team of 5 developers to develop a video game with online and local capability in 6 months using Unity and GitHub. Managed the project development, made coding contributions, and mentored teammates on game dev workflows.

Game Development I, II, III

Designed and developed 3+ games using Unity over semester-long courses. Created hand-draw, animated pixel art assets for 2 projects. Prototyped unique mechanics and self-taught unreal engine's node-based scripting.

Mobile App Development

Built 2 mobile apps using React Native: a restaurant finder (Yelp API) and a blog app (custom JSON server backend)

Experience

Cybersecurity Student Intern

Azusa, CA

Azusa Pacific University

January 2025 - Present

- Identify threats and implement procedures in application and network security keeping the organization safe and secure with a team.
- Assist with 10+ users daily through technical support and train 100+ employees for security awareness.
- Execute containment, eradication, and recovery model of incident response in short time frames.

Game Jam 2024 + 2025

Azusa, CA

Azusa Pacific University

January 2024 + January 2025

- Collaborated in 2 game jams to rapidly prototype original games under 48 hours.
- Demonstrated adaptability, teamwork, and problem-solving in high-pressure, fast-paced environments.
- Led programming and gameplay design, shipping fully playable builds using Unity and Python.

Student Scanner Operator

Azusa, CA

Azusa Pacific University

December 2021 – May 2022

- Scanned and indexed documents with accuracy and maintaining confidentiality.
- Contributed to the university with over 1,000+ high-quality documents in a semester.

Languages & Interests

Language: English (Native), Spanish (Fluent), Chinese (Elementary)

Interests: Video Games, Fantasy Novels, Painting or Digital Pixel Art, 80's Music + Guitar, Rubik's Cube, and Chess
